# Lighting factory

high quality *handmade* production

We are a **lighting factory**, and we have been manufacturers of lighting since 1987, and **we love doing so**. We design unique products that become unrepeatable because we produce them in-house with **our own hands and craftsmanship**.

# Artisanal value and innovation

**Metal** is the material we masterfully handle, having specialized in it for over 40 years since Lino Feltrin founded the company, making it a benchmark for quality and innovation.

Cristian Feltrin, who grew and trained in our “bottega”, continues this **vision** by combining **tradition and innovation**.

In our **DNA**, you will find the chromosome of **decorativism**: metal, blown and printed glass, crystals, pendants, reflections and decorations, acid treatments, and brushing have always influenced and stimulated our creativity, allowing us to design products with a strong visual impact. Looking to **the future**, our purpose is to **reinterpret this vision in a contemporary key**, creating original, distinctive, and unique products.

**Curiosity** drives us to explore new technologies in all their forms, allowing us to reinterpret our history and offer our clients always **new and original solutions**, whether standard or customized.

Over time, **our experience** has transformed into wisdom, attention to details, demand for excellence, focus on quality, construction skills, problem-solving ability, and a passion for **tailor-made projects**.

# The production department and the *bancon*

Located in Fanzolo, in the heart of Northeast Italy, our 2000 sqm production area combines **traditional and state-of-the-art machinery**, along with a mold archive and a well-stocked warehouse. The heart of the department is what we call the *bancon*, a 15-meter workbench around which our artisans take care of every little detail of each IDL product.

# IDL Custom

Customizing products to meet the needs and desires of our Partners has always been our standard practice. For 40 years, we have supported designers, architects, and customers with our design and production experience, offering them an unique opportunity to go **beyond the 'standard'** and make their **project distinctive**. Write to us at: **[info@idl1987.it](mailto:info@idl1987.it)**

# People as value

In every company, **people** represent a valuable resource: but in a company with a strong family and artisanal vocation like ours, they hold **special value** and possess a history we care deeply about.

Collaborating with IDL means becoming part of our family, where we have **always developed and produced every project as if it were our own.**

# Made in Italy

Always supporters of the **'local' supply chain**, most of our suppliers are located within 15 km of our company; this has allowed us to develop **deep trust-based relationships** that enable us to guarantee the **highest quality** of materials and workmanship.
